

ALLIANT ONLINE

is a web-based extension of Alliant Route

Accounting. **Alliant Online**

integrates with your route

accounting database to provide

information to your customers

24 hours a day. Customers can view their

own signed invoice copies online and also make basic service

requests such as adding a new wearer, requesting a size change

or submitting requests for their next delivery quantity.

Alliant Online reduces labor in the office and is a great

selling point for prospective customers.

ALLIANT ONLINE

DETAILED FEATURES & BENEFITS

INVOICING

- › **Online Invoice Access** – Your customers can login online and view copies of paid and unpaid invoices.
- › **View Paid Invoices** – Your customers can search old invoices that have already been paid.
- › **View Open Invoices** – Your customers may view open or unpaid invoices and sort them by aging category – over 30, 60, 90, etc.
- › **Print Invoices** – Your customers may print invoice copies online. For operators that use Alliant Mobile, the invoice will display the customer's signature and time and date the customer signed for delivery.

SERVICE REQUESTS

- › **Add Wearer** – Allows your customers to submit a request to add a new wearer.
- › **Add Item** – Allows your customers to submit a request to add a new item to an existing wearer.
- › **Size Change** – Allows your customers to submit a request to change the size of an existing item.
- › **Item Exchange** – Allow your customers to submit a request to exchange one item for another.
- › **Edit Next Delivery Quantity** – Allows your customers to view items and quantities that are being prepared for the next delivery and make a request to modify delivery quantities by item.
- › **General Request for Service** – Allows your customers to make a general request for service such as changing a delivery day.

PRODUCTION

- › **View Items Serviced** – Customers may view all of the items that they are currently serviced. Information available to the customer includes item number, item description, inventory quantity, pricing and average delivery quantities.
- › **View Next Delivery Quantity** – Customers may view items scheduled for delivery and view the date of delivery and the quantity for each item to be delivered.
